

Re : ee-web.co.uk

6th March 2015

Edward has done a great job for us. He has been very patient while being gently assertive with actions that we needed to be fulfilled in order to make our website fully functioning. Having had experience with other web developers in my previous company I really appreciate Edward ability to communicate at our level without falling into technical jargon which I'm afraid is general criticism of the world of web builders.

Thanks again Edward and look forward to the next site.
