

Testimonial

We have known Edward since the beginning of ee-web design. In fact I think our very first website was one of his first builds many years ago. Even back then our website was a great way to show examples of our work and Edward was always very helpful in working out exactly what it was that we really needed and coming up with a design that highlighted our strengths.

Of course web design has moved on since our first site was built and so we asked Edward to come up with a fresh rebuild, which he was happy to do. We are so pleased with the result.

Working with Edward is always very natural. The work schedule he laid out at the beginning of the build was very helpful for keeping track of progress and yet he remained very flexible throughout the process.

Providing training is a particular strength for Edward. He very quickly can determine the clients' technical understanding and is a very natural teacher. I found the training in wordpress extremely helpful and am now confident that I am able to keep the site updated.

We have no hesitation in continuing to recommend ee-web design to anyone looking to develop their online presence.
